-

Personal Information

- Total experience : 6 Years
 - Employment status : Senior Developer @Hepsiburada.com
 - Educational Status : University (Graduate)
 - Nationality : Turkey
-

Technical Tools

Docker, Kubernetes, C#, Asp.net MVC, Mobile Backend, OOP, Design-Patterns, REST, Glimpse, SQL, MS SQL Server, Entity Framework, NUnit, Dapper

Personal Projects

[Codired.com](#) : I built codired.com in 2017. Codired is a platform that companies can easily ask real world projects to applicants. Companies can glimpse candidates source code, run their project online and measure their code quality. It was a side project but it is a great idea to combine those features into one platform so we publish it to the internet.

We're using GoLang and Docker at the backend, php and jquery at frontend.

Professional Experience

Senior Software Developer, 07/20 – HEPSIBURADA.COM, ISTANBUL, Turkey

I'm currently in the payment team. Responsible for microservices that communicate with banks. Also manage the k8s clusters for the payment domain.
